Introduction

Computer Science graduate with hands-on experience in full-stack development, Python, Java, REST APIs, PostgreSQL, and AI/ML. Building practical DevOps experience with Linux, Git, GitHub Actions, Docker, Docker Compose, automated testing, and CI/CD. Interested in software engineering, backend development, cloud technologies, and automation.

Education

Carmel College of Engineering and Technology , Alappuzha B.Tech in Computer Science and Engineering (<i>APJ Abdul Kalam Technological University</i>) CGPA: 8.12	2022 – 2026
Sreepuram English Medium High School , Kannur 12 th Grade – ISC Board 89%	2020 – 2021

Projects

RETINA – AI Assistive System <i>Kotlin, Android, Computer Vision</i>	2026
- Developed an assistive Android application for visually impaired users using object detection, OCR, currency recognition, and audio feedback. - Developed obstacle detection and navigation functionality using computer vision and machine learning.	
Inventory Management System <i>Python, PyQt6, SQLite</i>	2026
- Developed a desktop inventory system for a motorbike shop supporting stock tracking, part locations, pricing, and purchase/customer billing. - Designed the system to manage 100+ inventory records per day and streamline daily operations.	
DevOpsHub <i>Python, Flask, React, PostgreSQL, Docker, GitHub Actions</i>	2026
- Built and containerized a full-stack Flask, React, and PostgreSQL application using Docker Compose. - Implemented Git workflows and automated testing and frontend builds with GitHub Actions. - Configured CI/CD with environment-based configuration and secure secrets management.	
Crop Recommendation System <i>Python, Flask, React</i>	2025
- Built a web-based crop recommendation system using React, Flask, weather data, and historical agricultural data. - Contributed to model training, preprocessing, evaluation, and integration with the web application.	
CV Sorting & Management System <i>React, Supabase</i>	2024
Developed a web platform for job posting and resume management with automated filtering and skill-based candidate organization.	

Technical Skills

Languages	Python, Java, C, JavaScript, TypeScript, SQL
Frontend	React, Vite, HTML5, CSS3, Tailwind CSS
Backend & DB	Flask, REST APIs, PostgreSQL, SQLite, Supabase
DevOps & Tools	Linux, Git, GitHub, GitHub Actions, Docker, Docker Compose, CI/CD, pytest
AI/ML	OpenCV, TensorFlow Lite, YOLO, Google ML Kit, Computer Vision
Core CS	OOP, Data Structures, DBMS

Experience

AI/ML Intern <i>ICT Academy of Kerala, Trivandrum</i>	Jan 2025 – Feb 2025
- Completed a one-month internship focused on Artificial Intelligence and Machine Learning. - Collaborated with a four-member team to develop and test a prototype across 5+ real-world datasets.	
College Arts Secretary <i>Carmel College of Engineering and Technology</i>	2025 – 2026
Coordinated and organized 3+ major college events with student teams and faculty.	
Freelance Web & Software Developer	2022 – Present
Developed and delivered 4+ freelance web and software projects, building responsive web applications, backend services, database integrations, and custom software solutions based on client requirements.	
Freelance Designer & Video Editor	2021 – Present
Delivered 5+ UI/UX projects and edited 50+ social media videos contributing to campaigns generating 100K+ interactions.	

Achievements & Certifications

IEEE Xtreme 17.0 – <i>College Rank 1</i>	2023
Secured first place at the college level in the 24-hour international programming competition.	
NPTEL – Programming in Java (<i>Elite</i>)
